

# Buoy management unit 1 on BOREL

PI: J. Legrand, Ifremer, France

## PARAMETERS

---

- Water ingress control in battery unit
- Water ingress control in electronic unit
- 12V voltage (V)
- 24V voltage (V)
- Internal pressure (mbar)
- X tilt (°)
- Y tilt (°)

## LOCATION

---

Regional node	Emso-Azores
Site	Lucky Strike
Node	<a href="#">BOREL</a>
Coordinates	37.289 °N 32.275 °W
Depth	Surface

**Comment from PI:**

## SENSOR METADATA

---

**Type:** Communication and storage unit

**2010-11**

Model Management unit

Provider Ifremer

Serial number 1

### Operating parameters

Sampling rate 24h

## DATA MANAGEMENT

---

Real time data transmission: **Full**

Data storage in the Communication and storage unit:

Data storage in the instrument: **No**
