

## Buoy management unit 1 on BOREL (2016-17)

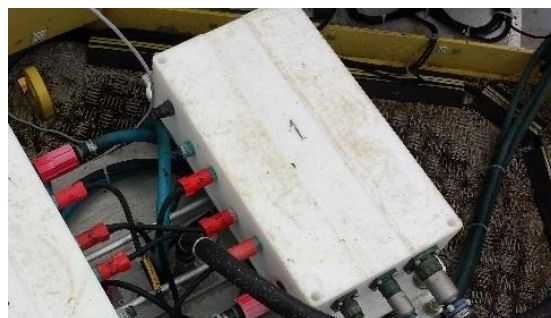

PI: J. Legrand, Ifremer, France

### Parameters

- Water ingress control in battery unit
- Water ingress control in electronic unit
- 12V voltage (V)
- 24V voltage (V)
- Internal pressure (mbar)
- X tilt (°)
- Y tilt (°)

### Location

Regional node	Emso-Azores
Site	Lucky Strike
Node	<a href="#">BOREL</a>
Coordinates	37.289 °N and 32.275 °W
Depth	Surface

### Data management

<b>Full</b>	Real time data transmission	<b>No</b>	Data storage in the Communication and storage unit	<b>No</b>	Data storage in the instrument
-------------	-----------------------------	-----------	--	-----------	--------------------------------

### Sensor metadata

Type: Management and storage unit

Model	F870313
Provider	Ifremer
Serial number	Sn 1
Sampling period	24 hours
